<sup>1</sup>Statute directs that the report be made to the Legislature.

<sup>2</sup>Statute directs that the report be made to legislative leadership.

<sup>3</sup>Statute directs that the report be made to the Executive Appropriations Committee.

<sup>4</sup>"NA" means reporting not applicable for the year shown. "Not required" means the report was not necessarily due to the Health and Human Services Interim Committee for the year shown and that it was not submitted to the Committee. For example, the report may not have been required for the year shown or the Committee may not have been the entity designated by statute to receive the report. This table does not indicate whether reports that are not required to be submitted to the Committee were made to the other entities designated by statute, i.e., the Legislature as a whole, legislative leadership, or the Executive Appropriations Committee.
